

LAXATIVE.

THE KIND YOU HAVE ALWAYS bought has borne the signature of the Western Chemical Co. of Chicago, Ill., for years. Allow no one to deceive you with counterfeits. Imitations and "just as goods" are but experiments, and endanger the health of children.

What is Laxative?

LAXATIVE IS NOTHING BUT THE FINEST CASTOR OIL, with its objectionable taste removed by our new process. LAXATIVE is as pleasant to take as honey. Children like it. No trouble to get them to take it. It contains neither opium, morphine, nor other narcotic substances. It relieves teething troubles, cures constipation and flatulency; it assimilates the food, regulates the stomach and bowels, giving healthy and natural sleep.—The Children's Panacea—the Mothers' Friend.

Prepared only by the Western Chemical Co., Chicago, Ills.

THE LATEST PLAN

For Crushing Philippine Rebels.

American Troops to Make a Concerted Movement Northward on Torac—What Lawton is Doing.

WASHINGTON, Sept. 30.—The War Department has received the following:
"MANILA, Sept. 30.—Adjutant General Washington: A communication dated the 12th instant from General Garcia, commanding all the insurgent troops in Eastern Mindanao, expresses a desire to turn the country over to the United States and to surrender the insurgent arms."
"MANILA, Sept. 30, 8:40 p. m. Fourteen American prisoners, all enlisted soldiers, have been delivered up by the Filipinos. It is reported from Iloilo that the Tagalos have arrested Virayan, a general, charging him with being a traitor. Tribal discord, it is added is growing. Many of the rebel soldiers have revolted, many European prisoners escaping in the meanwhile.

WASHINGTON, Sept. 29.—The capture of Porac by General MacArthur is regarded by the War Department as the preliminary maneuver to a general movement of the American troops north to take possession of the railroad from Manila to Lingayau Bay. General Otis has enough troops to make more movements and to garrison the towns along the line of the railroad. It is believed the rainy season will soon be ended, and that more extensive military operations will then be begun.

A large body of insurgents was in the vicinity of Porac, the extreme west of the populous province of Pangasinan. General MacArthur extended his lines almost to Porac early in August, but was compelled to withdraw toward Santa Rita and Angeles because of the heavy rains. The insurgents have remained to the west of Porac and last week they captured the gunboat Urdaneta on the coast to the south. It was considered necessary to drive them out of that territory before a general movement north was begun, and General MacArthur took possession of Porac with that end in view.

The General is expected to garrison Porac and keep the insurgents out of the valley and in the mountains. That will enable him to move his army north on Tarlac, where Aguinaldo has his headquarters, and he will continue to drive the insurgents to the north until the railroad from Manila to Lingayau Bay is in the possession of the Americans.

But little has been heard of General Lawton recently. It is said by War Department officials that he is near General MacArthur and is preparing to move north with a column parallel to the forces of that General. The greater part of the troops has been transferred quietly to the north of Manila for that movement. It is also said that a considerable body of troops will be transported from Manila to Lingayau Bay and landed to begin a southward march, with the expectation of crushing the insurgents between the two columns.

It is significant that Generals Lawton, Wheaton, Wheeler and Grant are all with MacArthur to the north, and it is said that they are preparing for an aggressive campaign that will clear that part of the island and place the one railroad in the Philippines completely under American control.

WASHINGTON, Sept. 29. General Otis today cabled the following report of the capture of Porac:

Lawton's troops are at Calumpit and San Fernando, where concentration is taking place. He is ordered to cover the country between Mexico, Guagua, Bacolor and Santa Rita. MacArthur has been ordered to take his troops and clear the country west and in the vicinity of Porac, which he did yesterday, advancing to Porac at an early hour with the Ninth Infantry and Thirty-sixth Volunteers, capturing Porac and driving the enemy north. Wheaton at Angeles kept back the enemy on his north and moved his force westward to intercept the Porac insurgents, but they retreated by mountain roads. The movement results in clearing the country preparatory to further operations. Our casualties at Porac are five wounded. Wheaton does not report any casualties. He captured one officer and several enlisted men. Some twenty of the enemy were killed; the number of wounded is unknown.

WASHINGTON, Sept. 30.—General Otis cables the following from Manila: "The Ohio transport, with three officers and forty-nine men of the Nevada cavalry, also 215 discharged men, sailed yesterday via Hongkong and Guam. Two men of the Nevada cavalry are in the hands of the insurgents."

During the winter of 1897 Mr. James Reed, one of the leading citizens and merchants of Clay, Clay Co., W. Va., struck his leg against a cake of ice in such a manner as to bruise it severely. It became very much swollen and pained him so badly that he could not walk without the aid of crutches. He was treated by physicians, also used several kinds of liniments and two and a half gallons of whiskey in bathing it, but nothing gave any relief until he began using Chamberlain's Pain Balm. This brought almost a complete cure in a week's time and he believes that had he not used this remedy his leg would have had to be amputated. Pain Balm is unequalled for sprains, bruises and rheumatism. For sale by all dealers. Benson, Smith & Co., Ltd., agents for H. I.
